

Assembly should be completed by an adult. Please make sure you follow all the instructions carefully. If you have any questions during installation please do not hesitate to contact us. Please make sure you read all the safety warnings and advice in this instruction manual. Please follow the warnings to ensure proper use of this kite and ultimately to ensure full enjoyment!

### Maintenance

*We recommend the following maintenance for your kite.*

#### Looking After Your Kite

To keep the kite in its best condition, after each use use the storage bag provided. If the kite is a little grubby from falling on the ground, wipe it with a damp cloth and make sure it is completely dry before storing.

#### Using the Kite Safely

We recommend following this advice to make sure you have fun with your kite safely. Find a safe location to fly the kite away from roads or animals. Trust us, getting tangled around an unsuspecting animal will do neither of you any good at all! Wearing protective clothing is also recommended. This is because a very strong wind can cause the kite to pull suddenly and the rope can hurt unprotected hands - so wear gloves if you can!

#### Assembling the Kite

Firstly, open the kite flat onto the ground, with the little black pockets facing upwards.

Slot the shorter Support Rod into the little black pockets at the top and bottom of the kite, as shown in picture '1'. You'll need to bend the rod just slightly while doing this.

Next, slot the larger Support Rod along the width of the kite into the plastic connectors on the sides, as shown in the diagram '2'.

Again, you'll need to bend the rod just slightly while doing this.

Tie both rods together in the middle using the ties which are already sewn onto the kite.

Turn the kite over and lay it flat on the ground. Thread the end of the string through the little loop on the triangular flap and tie in place.

Your Everfly Rainbow Kite is now ready for its first flight!

#### Using the Kite Storage Bag

Untie the string from the kite and untie the ribbon in the middle. Now remove both rods and put them to one side. Then, fold the top corner down as far as the internal rods will allow. Fold the kite in half, and fold again. Now roll it up and slot it inside the bag along with the rods and string!

### Warnings!

Do not use near overhead power lines or during thunderstorms.  
Adult Supervision Required.  
Not Suitable for children under 3 years due to long cords; strangulation hazard!

## ARE YOU a PLAY EXPERT?

Take a photo and share it with us using #littleplayexpert or #bigplayexpert and be part of our growing network of play experts! Thousands of people every day are showing us that they are truly expert at play and playing in so many different ways - are you?

The concentration on their faces! #littleplayexpert @theplayexperts

## Not Just KITES...

You may or may not be aware that we design and make many different kinds of garden games and play equipment. Big Game Hunters has been designing and creating games for children and families since 1997 - so by now we really do know what we are doing. Here are just a few that are great for the whole family as well as just the kids...

### The Parachute Game

Giant Hi-Tower

### Wooden Skittles

Giant Four in a Row Games - Big 4, Hardwood Big 4 (pictured) & Jumbo 4

### The logo to look out for...

There are many more products we have created - just look out for our Big Game Hunters logo or flower emblem to be sure you have an official product. The brand is not just a logo, it is the whole family of ideas, service and quality that are behind every product. We are not a huge corporate and do not claim to be - we are proud of who we are and what we create so look out for our brand knowing that each product carrying our logo has a special standard we aim to maintain for years and years to come...
